

2027 ODI World Cup

Team & Venue Intelligence – Data Analyst Portfolio

Prepared by Gokul • Tools: Python • Pandas • JSON • Power BI • DAX

Executive Summary

Objective

Team & venue intelligence for 2027 ODI World Cup

Workflow

Ball-by-ball JSON → team-venue measures → weighted scoring → Power BI

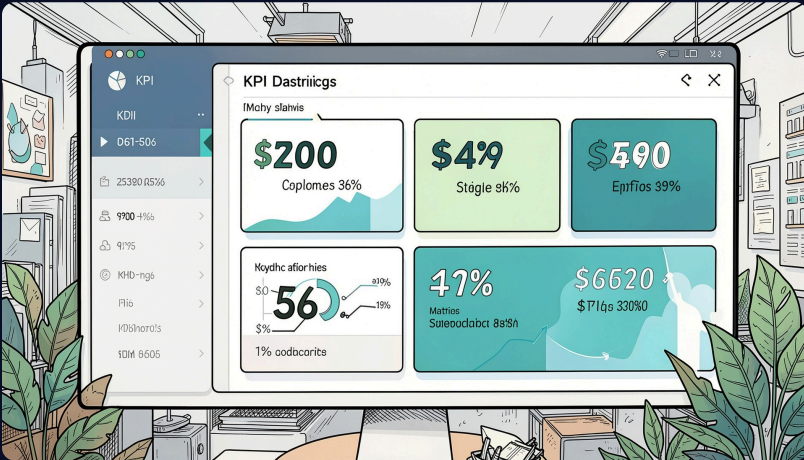

Scope

14 teams · 12 venues · 168 team-venue combos

Top Result

Pakistan @ Queens Sports Club – Score 87.10

Project Snapshot

Project teams

14

Team-venue combos

168

Highest score

87.10 – Pakistan

Project venues

12

Historical coverage

78.57% historical · 21.43% fallback

Business Objectives

Primary Goals

Identify favorable venues per team • Compare batting & bowling by venue

Scoring

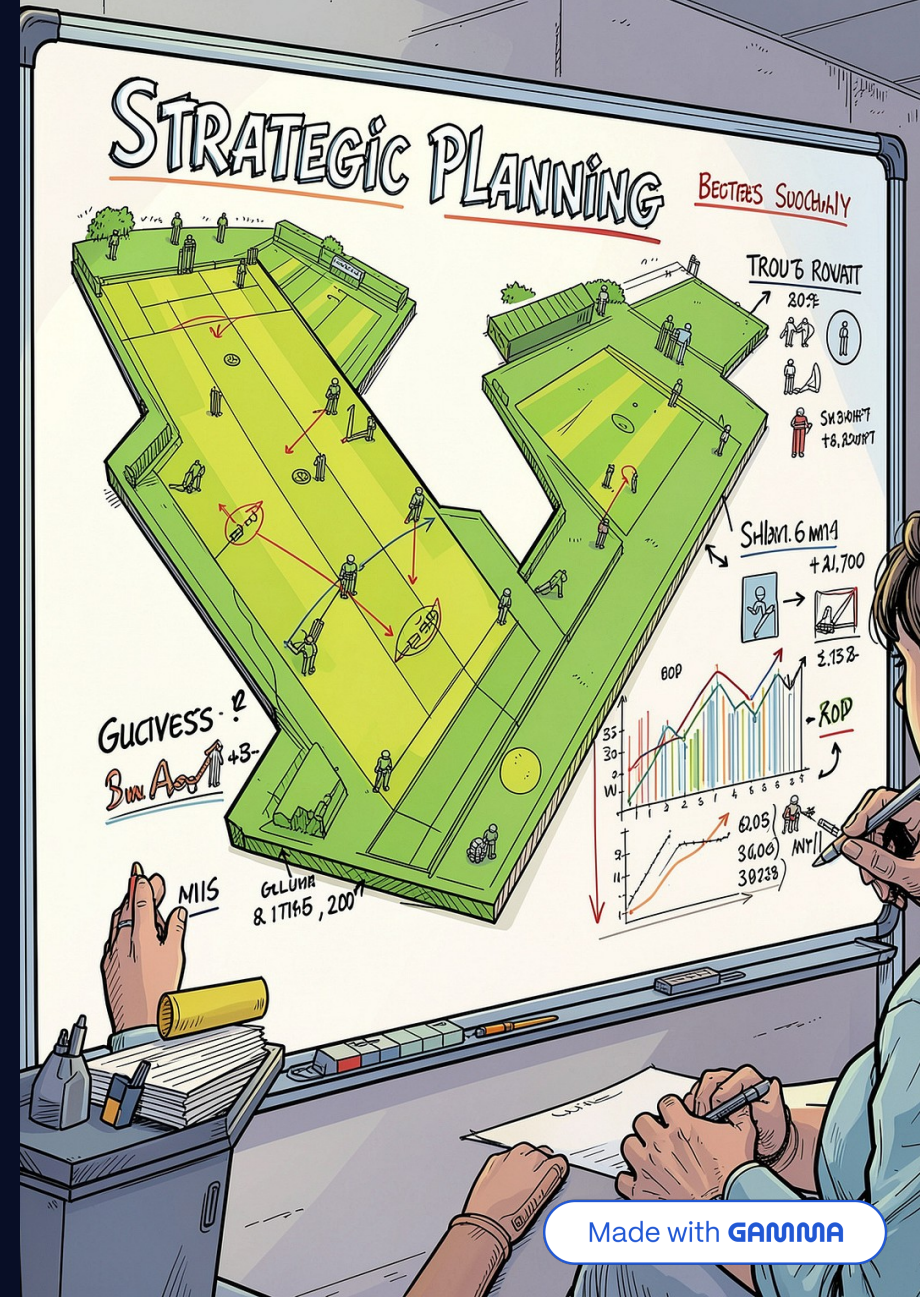

Consistent 0-100 suitability framework

Coverage

Provide fallback logic where historical data missing

Delivery

Interactive Power BI dashboard for exploration

Data Source & Scope

Source: 2,565 men's ODI JSON files

- Filtered: men's ODIs from 2015-01-01 onward
- Standardized 12 project venues
- Parsed ball-by-ball for batting & bowling

Qualifying match records in master dataset: 153

Venues & Teams

Wanderers

SuperSport
Park

Mangaung
Oval

Queens
Sports Club

Newlands

Harare Sports
Club

Teams: Australia, Bangladesh, England, India, Ireland, New Zealand, Pakistan, Scotland, South Africa, Sri Lanka, West Indies, Zimbabwe, Namibia, Afghanistan

Data Prep & Transformation

Ingestion

Read 2,565 JSON match files;
extract metadata

Filtering

Men's ODIs from 2015 onward;
selected venues

Extraction

Batting: runs, strike rate, 4s, 6s,
dismissals. Bowling: wickets, econ,
avg

Merge

Team-venue batting, bowling,
results → master layer

Scoring Methodology

Batting Components

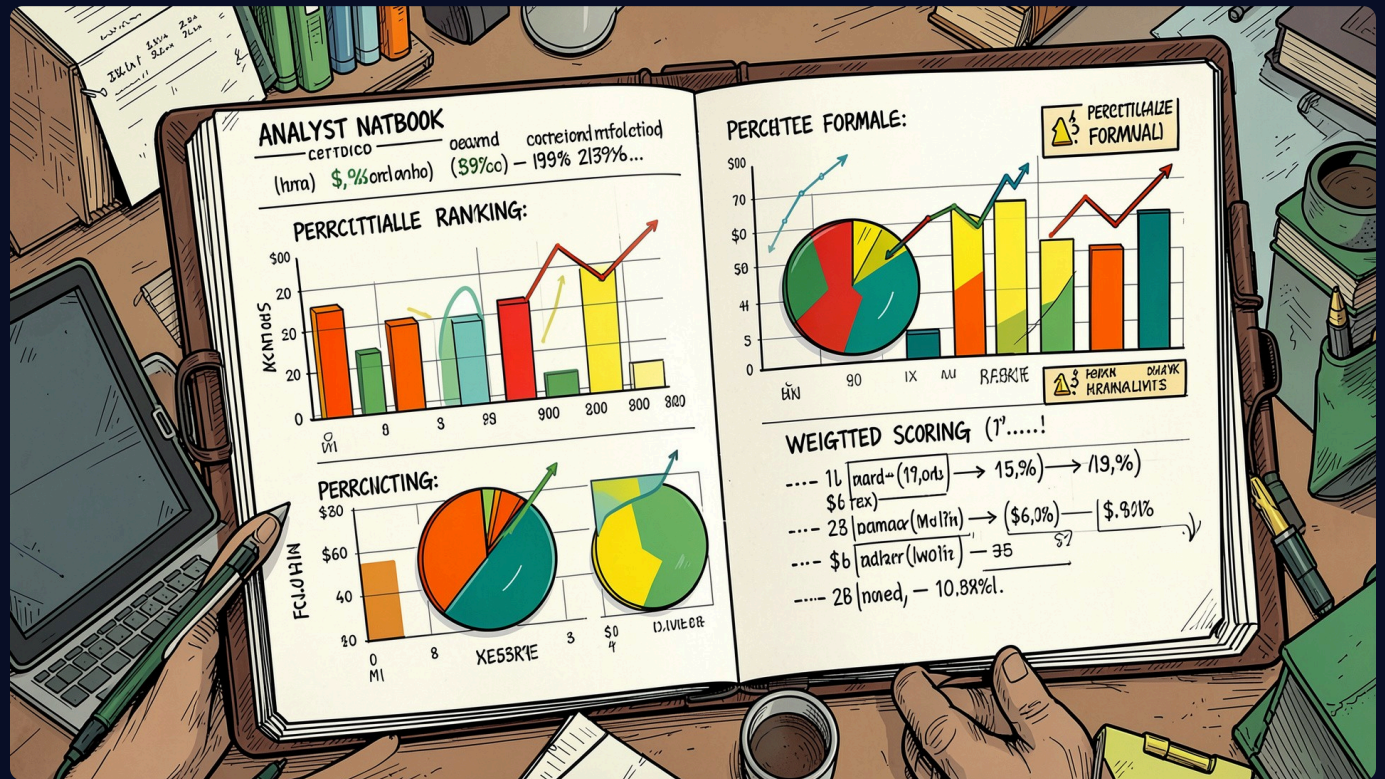

Runs/innings 40% · Strike rate 30% ·
Fours 15% · Sixes 15%

Bowling Components

Wickets/match 40% · Economy 25% · Avg
20% · Strike rate 15%

Overall Score

50% batting + 50% bowling
(percentile-ranked components)

Fallback Logic & Coverage

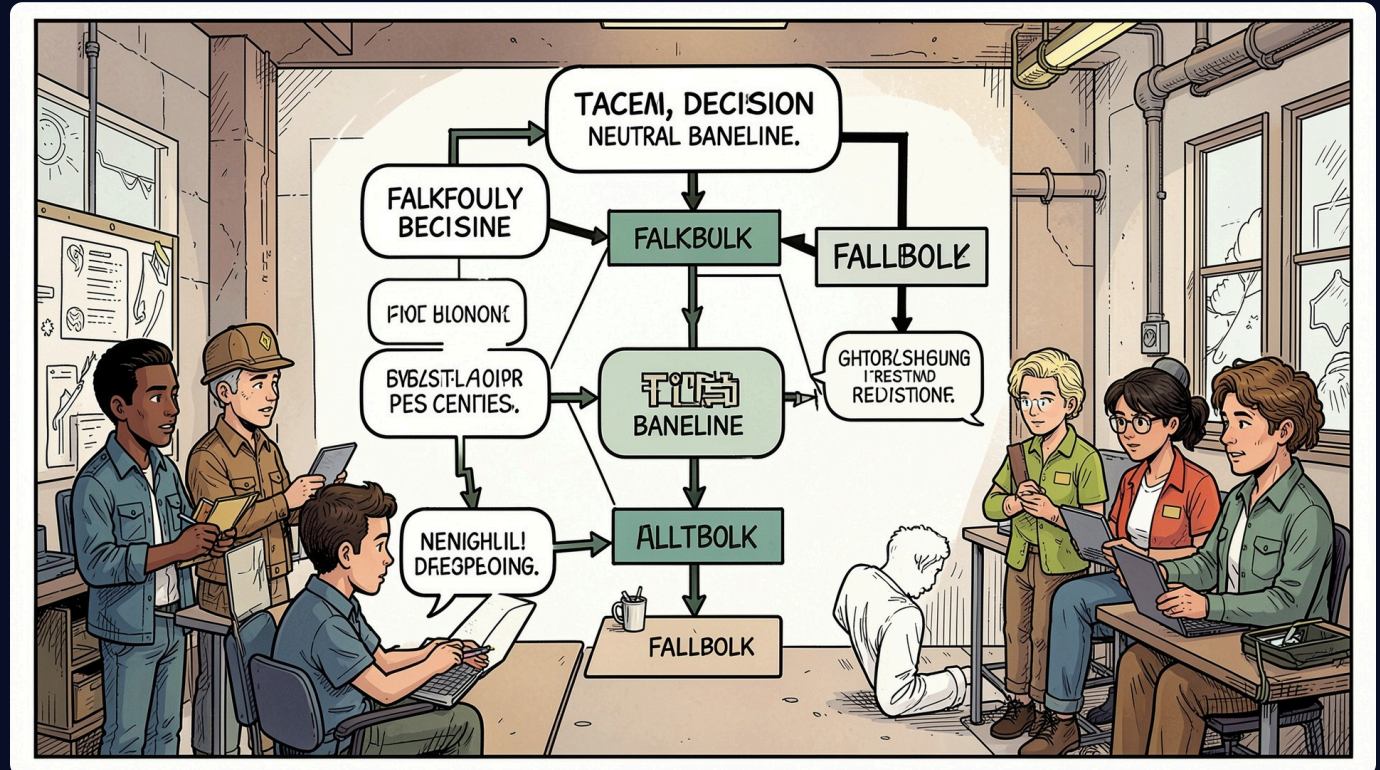

All 168 team-venue combos created.

Use:

- Historical venue score when available
- Team-level weighted venue fallback if missing
- Neutral baseline when team has no historical score

Coverage: 68 combos historical (40.5%)

• 100 combos fallback (59.5%)

Key Findings & Dashboard

Top recommendation

Pakistan – Queens Sports Club – 87.10

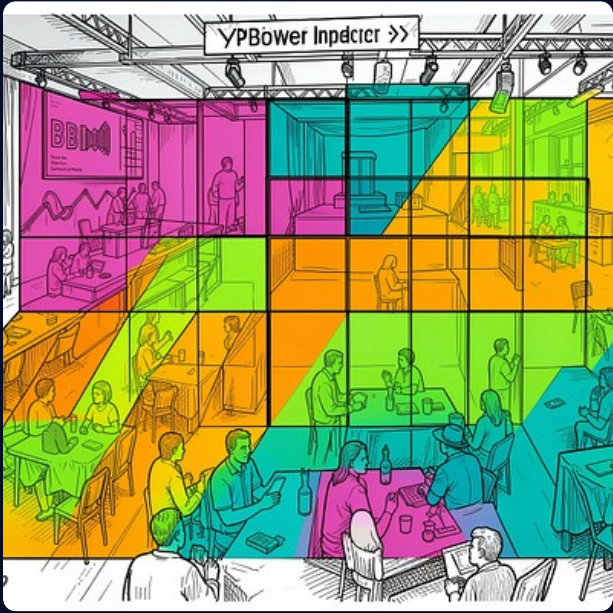

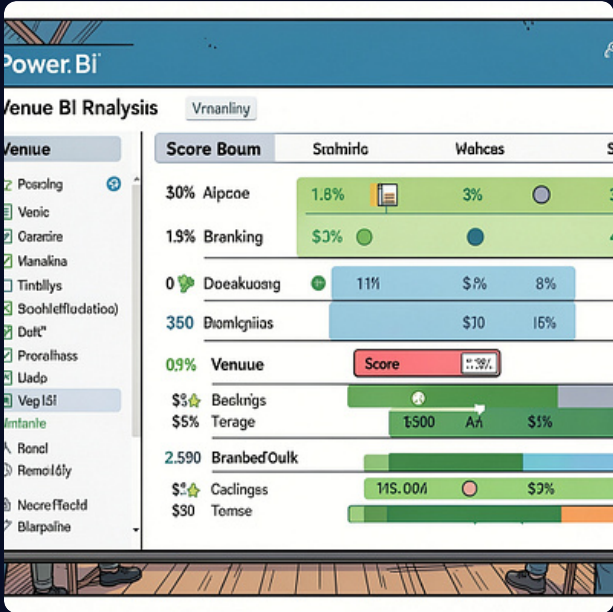

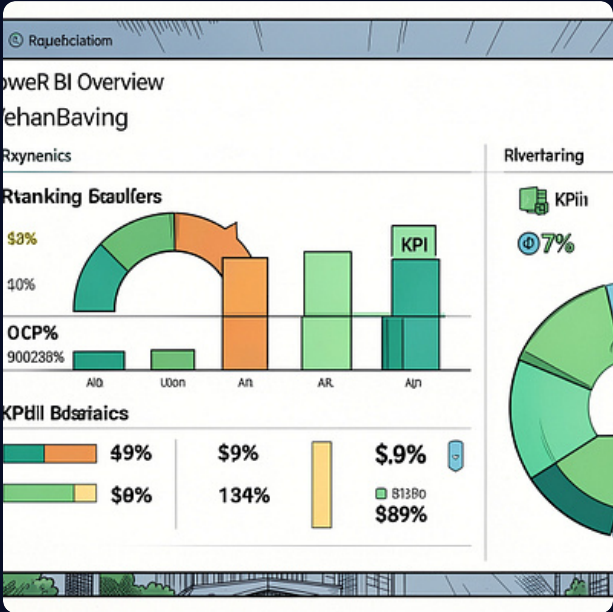

Next top

South Africa – Buffalo Park – 85.63
